

# Make Your Own Biodegradable Corn Plastic

Corn is all around! It's even in plastics that you use each day. You can easily make your own corn plastic with things you have around the house!

## What you need:

- Paper cup or plastic bag
- Cornstarch
- Corn Oil
- Water
- Food Coloring

## What you do:

1. Place a tablespoon of cornstarch in a paper cup or plastic bag.
2. Add 2 drops of corn oil.
3. Add a tablespoon of water.
4. Stir.
5. If you want to add some color, add 2 drops of food coloring and stir.
